Mr. Kim Edward Cook was recognized for 5 years of service to CIMC as both a member of the Board of Directors and the Native American Workforce Investment Council at the 40th Annual Membership Meeting in November 2018.

Ms. Roseanne Moose was named Program Year 2017 Outstanding Board Member at the 40th Annual Membership Meeting in November 2018.
CIMC Board Member named to Census 2020 California Complete Count Committee

CIMC Board of Directors Treasurer Robert H. Smith was appointed to the California Complete Count Committee for the 2020 Decennial Census by Governor Gavin Newsom.

The California Complete Count Committee is an advisory panel of community leaders who represent diverse populations from across the state. The main purpose of the California Complete Count Committee is to assist in the development of a state Census strategy for a complete and accurate count of California’s population. The members work to recommend strategies to increase the count in their respective communities.

CIMC participated in National Gathering of Native American Veterans

CIMC Board of Directors Chairman Benjamin Charley, Jr. (US Marine Corps veteran) along with the Big Sandy Rancheria of Mono Indians-Veterans of Foreign Wars Color Guard, and CIMC Executive Director Lorenda T. Sanchez traveled to Illinois for the 4th Annual National Gathering of American Indian Veterans on July 20-22, 2018.

This is a yearly event held in the summer at Cantigny Park in Wheaton, Illinois and is hosted by the Trickster Art Gallery (CIMC Member). This three-day event honored veterans and military personnel of all cultures, eras, and branches in a Native way. Gathering included special panels led by veterans and veterans service providers on topics ranging from traditional health and wellness, working with the VA, jobs and economic development for veterans after service, and more.
During Program Year 2018, the California Indian Manpower Consortium, Incorporated (CIMC) has realized positive movement of issues and in policies needing change and consideration of the trying and turbulent times faced by our people. As in years past, Program Year 2018 remained a very busy year for CIMC. CIMC staff dedicated their time and efforts to provide appropriate services and support to meet the overwhelming volume of needs which are a constant reflection of this challenging economy and time. We are pleased with our program outcomes and performance results for our various programs.

The satisfying and rewarding experience that results from our investment of time and energy to fulfill the goals of CIMC keeps us inspired to enhance the quality of life and culture for those we serve. We do this in spite of inadequate budgets and flawed performance indicators. We continue to build upon what works and define our priorities and focus accordingly. Our intent is to strive for solutions and contribute to the economic and social well-being of those we serve.

As we reflect on our Workforce Development Program accomplishments and challenges, it is imperative that we work together to advocate for realistic funding and take steps to address the needs of a changing work environment, the need to upgrade the skills and education of our Native job seekers, entrepreneurs, and youth and bring our programs to their full potential. We will need to forge positive action through the Native American Employment and Training Council to heal the strained relations with our federal colleagues. Additionally, we remain committed to providing quality services for our children, elders, Tribal and Native communities through all the programs administered by CIMC.

In celebrating our work during this past year, we are pleased to share our accomplishments in this Program Year 2018 Annual Report. Through our Workforce Development Programs we provided 2,917 Core Services, 615 Direct Participant Adult Services, 34 Tribal Supplemental Youth Services and 114 Native Employment Works Program Services. We completed the Career Pathways for Youth Program in December 2018, serving 288 youth participants. We continue pursuing an online university to incorporate certificate training for our Native Entrepreneurial Training, Caregiver Training and Workforce Development Professionals Training. CIMC continues work on the development of a CIMC P.L. 102-477 Tribal Plan. We have launched a Customer Relationship Management System on July 1, 2018; an initial phase to integrate our application into a paperless process.

Our Child Care and Development Block Grant (CCDBG) Program continues to coordinate and provide exemplary services to 185 children from 97 families. The CIMC Elders Program provided 38,822 meals to elders from 17 participating Tribes. Caregiver Training was provided to 30 individuals. Elder Caregiver Health and Wellness Training, Medicare Informational Workshops and participation at the National Indian Council on Aging Biennial Conference and Annual Elders Holiday Hope 4 Natives event were attended by our Elders. The Community Services Block Grant (CSBG) Program provided 301 households with direct services. We continue participation as a Census Information Center. In April 2019, CIMC, along with the California Native Vote Project, was funded for statewide outreach to hard-to-count Native American and Tribal communities in California through the California State Census 2020 Office. We continue to reach our communities through our CIMC Mobile App, CIMC Condor Connection electronic newsletter and the CIMC website.

Continuing the traditions of the past 41 years, we will do our part to make sure our agenda maintains a strong voice and plays a significant role in Indian and Native American employment and training issues, and we will stand firmly in our quest to further policies and provisions which are consistent with the law and with federal Indian policy (including tribal sovereignty), and which will protect our ability as Indian tribes and organizations to meet the needs of Indian people. We will present our Statement of Urgency on Indian and Native American employment and training program concerns submitted to the Secretary of Labor during this year’s 41st Annual Membership Meeting of the California Indian Manpower Consortium.

In closing, I thank the CIMC Board of Directors for their leadership and guidance, the CIMC staff for their un­tiring and dedicated work, the Native American Workforce Investment Council for their input, the Condor Education Advisory Committee and Condor Education Partners for their commitment to enhancing our education capacity, and the CIMC Membership for your continued guidance and support. It is a privilege, pleasure and honor to work with and for you.

In September 2017, CIMC was awarded a $15,000 grant from the Sierra Health Foundation 2017 Responsive Grant Program to build a Customer Relationship Management System. A CRM System allows businesses to manage business relationships and the data and information associated with them. By deploying and implementing a Customer Relationship Management (CRM) system, CIMC worked toward streamlining manual processes to reduce staff time on administration for each of CIMC’s individual programs.

As of July 1, 2018, the CIMC Workforce Development Program and the CIMC Community Services Block Grant Program were integrated into the new CRM system, utilizing one application for both programs. Furthermore, all paper intakes and forms were integrated into the system, removing the need for mailing paper and lengthy waiting times.

Overall, CPY exceeded their enrollment numbers and the overall enrollment goals of the program. The CIMC CIC, one of 49 nonprofit organizations nationwide and one of five American Indian and Alaska Native organizations, worked directly with the U.S. Census Bureau to continue to provide the best up-to-date data specializing in American Indian/Alaska Native (AI/AN) data, including income, benefits, education, employment, poverty and disabilities.

California Complete Count - Census 2020 Project

In April 2019, the California State Census 2020 Office announced its selection of CIMC as an additional partner organization to encourage participation of all Californians in the U.S. Census Bureau’s 2020 decennial count. As one of the organizations targeting nine hard to count populations, CIMC along with California Native Vote Project, was selected in an effort to dedicate funding and resources toward statewide outreach to hard-to-count Native American and tribal communities in California.

Through partnerships with established Native American organizations throughout the state CIMC plans to achieve the key objectives to Educate, Motivate and Activate Native Americans in California to respond to the decennial 2020 Census. Each partner has an established statewide Native American network, extensive community-member databases, an ongoing presence at Native community events and meetings, and the capacity to effectively promote the message that the Census is safe, secure and important. CIMC's partners include:

- California Consortium for Urban Indian Health
- Northern California Indian Development Council, Inc.
- Owens Valley Career Development Center
- Southern California American Indian Resource Center, Inc.
- United Indian Nations, Inc.
