Program History:

On July 22, 2014, the Workforce Innovation and Opportunity Act (WIOA) was signed into law. The WIOA is intended to be customer-focused, to help Americans access the tools they need to manage their careers through information and high quality services and to help U.S. companies find skilled workers. Funding is provided by the U.S. Department of Labor, Employment and Training Administration.

Program Priorities:

The following overall priorities have been developed by California Indian Manpower Consortium, Inc. for its WIOA Title I, Section 166 Program:

- target participants most in need of and who can benefit from program services;
- develop the most appropriate plan of services for each participant based on an accurate and adequate assessment of the participant's skills, abilities, career interests and goals, employment needs, training needs, and other needs;
- utilize the most current employment and related information and statistics when providing counseling for program participants so that training and career decisions can be made with the participant's informed understanding of the labor market;
- meet participant's employment and training needs and enhance their long-term employability through the development of comprehensive plans of service and career pathways through the placement of participants in appropriate employment and training activities;
- coordinate services with other social service agencies to meet both the employment and training and other social services needs of program participants, thus improving their chances of successfully meeting their goals;
- provide program services to the maximum possible number of participants by coordinating services with other available funding resources;
- coordinate and participate in the one-stop system;
- place participants in employment and training activities that are based on employers' needs, thus improving participants' likelihood of obtaining and retaining unsubsidized employment;
- continue the development of relationships with employers that will allow for the sharing of both information and expertise between private sector employers and the program; and
- contribute toward the development of both reservation and non-reservation Indian and Native American communities by making services available through the program.

Program Services:

**CORE SERVICES**

- Outreach
- Intake
- Orientation to Program Services
